

## Divi does it again with the First Annual Links Ladies Golf Tournament

Watch out gentlemen, this last bastion of male chauvinism is about to fall, as the Divi Links Ladies' Club takes over the fairways, which after two sessions of classes has earned them their first tournament! The teams of three performed admirably, according to Head Golf Pro Adam Williamson. The contenders were greeted at the end of a their nine hole tourney with elegant snacks from the Divi culinary team and Grand Mojitos, made with Grand Marnier, from the people at Aruba Trading Company, co – sponsors of the tournament.

The first place team Lissette Danker, Jocelyn Darris, and Isella Wernet took home beautiful engraved crystal trophies and a free round of golf at The Links. Second place winners Eleanor van Haarlem, Bernedette Zweerman and Miranda Broers now sport beautiful white gold earrings compliments of the EFFY collection, which they can wear as they make their way down the fairway while playing the round of golf they also won. For the third place team of Natasja Croes, Isabella ten Lohuis, and Sherline Ramharakh, gift certificates for a sunset sail from Red Sail Sports, and from SETAR, N.V., Aruba's national telecommunications company, awaited them at the end of the day. Natasja Croes and Isella Wernet also collected snorkel trips courtesy of De Palm Tours for getting closest to the pin, and so did power player Jocelyn Darris for the longest drive, a whopping 210 feet!

The women and their supportive significant others enjoyed a well deserved celebration in the shadow of what will soon be the “Windows on Aruba” restaurant, offering a nearly 360 degree breathtaking view of the course and the island. Their enjoyment of the camaraderie was second only to their enjoyment of the sport and the development of their skill through the Divi Links Women's Club program. What is next? A mixed tournament, like mixed doubles in tennis, or will it be a battle of the sexes? We can't wait to find out!

Congratulations ladies on your well earned wins!
